

12 October 2017

Ms. Krysta Banas
Advance Relocation Systems
11500 Crossroads Circle
Suite A
Middle River, MD 21220

*Krysta -
Thank you to you and
your team for your
support and hard work
on our behalf -
Adrienne*

Dear Krysta:

On behalf of the entire Susan G. Komen organization, participants and survivors, thank you so much for your generous contribution to the 2017 DC Race for the Cure. We would not be able to provide our participants with an impactful Race Day experience, and more importantly, be able to provide support to the medically underserved women in our community without generous supporters such as Advance Relocation Systems.

Through events like the Washington, D.C. Race for the Cure®, Komen has invested more than \$37 million in community breast health programs in Washington, D.C., Northern Virginia and Montgomery and Prince George's counties in Maryland and has helped contribute to the more than \$1 billion invested globally in research.

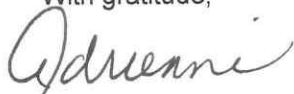

We fund some wonderful community organizations, including Breast Care for Washington, Nueva Vida, Arlington Free Clinic and others. Enclosed please find a complete list of the National Capital Region community grantees that you help us fund.

We just don't only provide funding for screenings. Some of the great programs we fund include, in addition to breast cancer screenings, are diagnostic tests, medical supplies, out-of-pocket medical costs, surgeries and other therapies, transportation to treatment, culturally sensitive education, patient navigation programs – even emergency living expenses, and other assistance to help overcome the barriers people face when trying to access the care they need.

October is National Breast Cancer Awareness Month, and while we are grateful for the greatly needed attention and support during October, we are most grateful for supporters like you, who recognize the need to assist medically underserved women and men in our community year round.

Thank you again for your support. We look forward to seeing you next year - September 8, 2018!

With gratitude,

Adrienne Johnson
DC Race Program Manager

African Women's Cancer Awareness Association
Navigating and Supporting African Immigrant Women through Breast Cancer Treatment and Survivorship
 8955 Edmonston Road, Suite D
 Greenbelt, MD 20770
www.awcaa.org
 301-565-0420

The AWCAA will implement an integrated program that targets African immigrant women living in DC Wards 2, 5, 7, 8, and Alexandria, Virginia by providing navigation services to these women with abnormal screening and imaging test results, as well as those diagnosed with breast cancer. Additionally, AWCAA will link them to community resources to help with their financial and psychosocial needs. The goal is to help reduce breast cancer mortality among African immigrant women.

American Association on Health and Disability
Breast Cancer Awareness for Women with Disability
 110 N. Washington Street, Suite 328J
 Rockville, MD 20850
www.aahd.us
 301-545-6140

The goal of this program is to reduce disparities for women with disabilities in DC wards 2, 5, 7, and 8 by collaborating with community and healthcare providers in mammography screening facilities. AAHD will also provide breast health education, and increase screening mammograms by assessing accessibility to mammography facilities and reduce structural barriers.

Arlington Free Clinic
Arlington Free Clinic's Continuum of Breast Care Program
 2921 11th St. South
 Arlington, VA 22204
www.arlingtonfreeclinic.org
 703-979-1400

Arlington Free Clinic serves as a medical home while providing

comprehensive, high-quality patient navigation into the full spectrum of breast health services for low-income women in Arlington, Virginia. AFC will provide access to free breast cancer screening, diagnostic mammograms and treatment.

Boat People SOS, Inc.
Health Awareness and Promotion Program (HAPP)- Breast Health
 6066 Leesburg Pike #100
 Falls Church, VA 22041
www.bpsos.org
 703-538-2190

The Health Awareness and Promotion Program (HAPP) targets Asian-American women to increase their breast self-awareness, rate of clinical breast exams, and screening mammograms. The program includes one-on-one culturally and linguistically competent breast health education and healthy lifestyle workshops, linking women to appropriate services and providing navigation services by bilingual staff at low or no cost.

Breast Care for Washington Community Based Breast Care Navigation
 4 Atlantic St. SW
 Washington, DC 20032
www.breastcaredc.org
 202-465-7164

This program targets uninsured/underinsured women in D.C. by providing screening, diagnostic, treatment and patient navigation services to any woman regardless of her ability to pay. The goal is to reduce breast health disparities among medically underserved women.

CASA de Maryland
Latino Cancer Prevention and Control Program
 8151 15th Avenue
 Hyattsville, MD 20783
www.wearecasa.org
 301-270-8432

CASA is implementing the Latino Cancer Prevention and Control

Program to address gaps in health care and access for low-income Latinas in Prince George's and Montgomery Counties. The program also targets African immigrant women within these counties. CASA trains community health promoters to provide culturally-relevant breast health information sensitive to the challenges experienced by immigrant women.

Breast health education, referrals, mammography screenings, and linkage to treatment are the core program components.

Ethiopian Community Development Council, Inc.
Project PATH - Patient Access to Health
 901 S. Highland Street
 Arlington, VA 22204
www.ecdcus.org
 703-685-0510

The purpose of ECDC's Project PATH is to offer culturally and linguistically appropriate support to immigrant women that will help alleviate the difficulties they face while navigating breast health care. ECDC will provide services such as appointment reminders, and transportation coordination assistance to enhance access to services for women in the continuum of care following an abnormal screening. ECDC will also ensure women are accessing the community resources available to them, such as culturally appropriate support groups.

George Washington University
Multi-Stakeholder Education: Breast Cancer among Lesbian, Bisexual and Transgender (LBT) Individuals
 2030 M Street NW, Suite 4003
 Washington DC 20036
www.smhs.gwu.edu/gwci
 202-994-2449

The George Washington Cancer Institute (GWCI) focuses on increasing lesbian, bisexual, and transgender (LBT) individuals' health literacy regarding their risks for breast cancer.
